

# BANANA'S FOR BANANA PUDDING

CREATED BY THE OFFBEAT LIFESTYLE

8 servings | Prep Time 15 minutes | Chill 1 hour

## INGREDIENTS

1 pkg vanilla pudding mix

2 c cold milk

1 can (14 oz) condensed milk

½ c heavy whipping cream

1 tblsp vanilla extract

2 bananas

1 package vanilla wafers

## DIRECTIONS

In a large mixing bowl, beat together pudding mix and milk for 1 minute. (It will become the consistency of pudding.) Add condensed milk and mix for 2 minutes. Once fully mixed add vanilla extract and heavy whipping cream. Mix for another 2 minutes.

Cut bananas into smaller piece and throw into pudding mixture. Mix until the bananas have become one with the pudding. The pudding will be fluffy and smooth. If you want to add a fluffier consistency add whip cream, and fold in.

Let pudding sit in the fridge for 1 hour.

Layer whole wafers with crushed wafers and pudding mixture in a glass serving bowl. Chill until ready to serve.
